

STAFFIE AND STRAY RESCUE ADOPTION APPLICATION

Thank you for enquiring about adopting a dog.

We specialise in the rehoming of more challenging and complex dogs. Because of this, we are predominantly looking for pet free homes. If you have other animals in your home, you are welcome to apply but please be aware that **there is a waiting list which is currently at least one year long**. Further to this, if you are wishing to adopt a dog that will be sociable with others on walks, please consider that we may not be the right rescue for you due to the types of dogs we rehome as a result of abuse and neglect.

We get dogs from all sorts of backgrounds, including strays, cruelty cases and unforeseen circumstances within the home. All dogs are given a 'health MOT' when they arrive into rescue. We ensure that all dogs are spayed/neutered, microchipped, vaccinated, given flea and worming treatments alongside any other needs the dog may have. There is an adoption fee of £200 which contributes to these treatments and assists the rescue with the costs.

We can never fully know a dog's background. We carry out assessments to get an idea of the dog's behaviour and what type of home the dog would be most suited to. Dog's behaviours can change in time as they settle in the home.

Please read our policies and ensure that you are eligible before applying:

- We currently rehome within a two hour driving radius of Bournemouth (Exceptions can be made for distances up to 2 hours 20 minutes for the perfect applicant who is willing to travel)
- We only place dogs in homes where children are at least 6 years of age (Each dog will have differing needs as show on their profiles on our website.
- We ask our applicants to have their own private and secure garden
- We prefer applicants to have experienced with large breeds and bull breeds. The majority of our dogs are reactive towards other dogs and often need to be on lead at all times and also muzzled. Please be aware of the types of dogs we take in and rehome before applying

If you are interested in adopting, please fill in the included application form. Following this, please drop the attached veterinary reference form to your vets, they will complete and return it separately to us.

We look forward to hearing from you soon.
